

Lost Mine of Phandelver Notes

2024

1 Phandalin

Sildar Holwinter says Gundred was taken to a "Kragmor Castle."

The owners of the *Stonehill Inn*, Toblen and Trilena Stonehill say that because of the Orks to the east and the Redbrands gang; Business is poor.

Rumors overheard throughout town: Someone poking around at the old owl well (50 miles NE)? Something mysterious about the old adventurer of the orchard.

Harbin Wester the townmaster is reluctant to do his job, and does not want to help Sildar in setting up the Lord's alliance in Phandalin. Perhaps fixing the issues of the gang and orks could convince him?

A lady at the *Miner's Exchange* takes a look at our gem; she says it is faintly magical and very well cut. Glastaf is hanging around the old manor, apparently she saw someone being dragged there.

The *Shrine of Luck* is dedicated to Tmoir, the god of luck and good fortune. Sister Garaele says she is responsible for the shrine, a place where people come to pray for good fortune. A couple of people have ended up dead in the middle of the street; A farmer, a miner, and now one of the Red Brands whose corpse is in the shrine itself.

A halfling called *Queline* knows Radoff, a mysterious friend of hers who went to thundertree (50 miles NW). Radoff apparently might know information on disappearances.
